Azamat Shogen

Las Vegas NV • az.shogen.dev@gmail.com • (773) 592-7376 • [LinkedIn](#) • [Portfolio](#) • [GitHub](#)

Summary

Software engineer with hands-on experience in full-stack development and automation testing. Skilled in JavaScript, Java, and Python with a strong focus on building scalable, reliable systems. Driven by collaboration, clean code, and continuous learning.

Professional Experience

Software Developer (Freelance)
Remote   *Mar 2024–Present*

- Developed and deployed a custom admin dashboard with 20+ pages and components, leveraging Next.js, TypeScript, and server actions.
- Enhanced client data accessibility by 20% through Shadcn-UI integrations, improving client query response times.

Permit agent - Software Developer
Chicago IL   *Feb 2019–Dec 2023*

- Implemented a responsive full-stack website for the company and key clients, driving increased interest from additional companies and expanding our business network.
- Developed full-stack solutions for user authentication, email verification, and role-based routing, boosting client engagement and satisfaction by 50%.
- Ensured client satisfaction through exceptional and personalized service, enhancing client retention and growth.

Education

Revature Pep-Training   *Mar 2025*

Focused Java Full Stack development, including Spring Boot, RESTful APIs, and enterprise-level application architecture.

SuperSQA Bootcamp   *Jun 2024*

Focused on Automation Testing with Python, Selenium, Pytest, SQL, Jenkins, Docker, and GitLab

Nucamp Bootcamp   *Sep 2021*

Specialized in Backend Development with Python, PostgreSQL, Docker, Django, and DevOps

Skills

- **Languages**: JavaScript, Python, Java, TypeScript
- **Frameworks & Libraries**: React, [Next.js](#), Spring, Spring Boot, Javalin, Node.js, Express, HTML, CSS, Bootstrap, Tailwind CSS
- **Databases**: MongoDB, SQL, PostgreSQL
- **Testing & Automation**: Selenium, Pytest, Jenkins, Docker, CI/CD
- **Tools**: GitHub, GitLab, Jira, Postman

Projects

- **Admin Dashboard** Developed a comprehensive admin dashboard using Next.js, TypeScript, and Shadcn UI to provide an intuitive interface for managing user data, significantly improving data accessibility and administrative efficiency. [Demo](#)
- **Spring Social Media Blog API** Built RESTful API endpoints using Java, Spring Boot, and Spring MVC. Integrated Spring Data JPA Repositories to enable seamless CRUD operations on Account and Message entities. [Github](#)
- **Automation Reports Dashboard** Developed a test reporting dashboard using Next.js, Flask, Pytest, and Selenium to track and visualize automated test results for an e-commerce WordPress site, improving testing efficiency and transparency. [Gitlab](#) | [Demo](#)
- **Javalin Social Media Blog API** Built RESTful API endpoints using Java and Javalin. Implemented a modular design with clear separation of controller, service, and DAO layers. [Github](#)

- **React Card Game** An interactive card game created using React and Redux for efficient state management. This project emphasizes user engagement and smooth gameplay mechanics. Github | Demo
